Consulting Services to Jumpstart Your Upgrade to Cobra 5

The Deltek Consulting Cobra 5 Upgrade Service is designed to help most Cobra customers quickly and efficiently upgrade from a 4.6 or 4.7 version of our software. Our consultants will help minimize the risk involved in upgrading your system by using tools, templates and techniques that will get you up and running on Cobra 5.

TRUST DELTEK'S EXPERIENCED PROFESSIONALS FOR A FASTER, EASIER UPGRADE PROCESS

Take advantage of Deltek Consulting's experience and expertise for your Cobra 5 upgrade, and ensure a smoother, more accelerated upgrade process for your company. When you use Deltek Consulting for your Cobra upgrade, you'll get the benefit of over 20 years of implementation experience from our trained Deltek professionals.

Not only will you gain access to new features and functions faster – you'll also see the benefit from the upgraded technology platform, including additional performance and architecture enhancements. Most customers can be up-and-running on their new version of Cobra within one week.

To make your upgrade go more smoothly, our Cobra 5 Upgrade Service includes tools and expertise that have been developed and tested by Deltek Consulting, including:

- Technical advice and assistance
- An upgraded Cobra 5 test database
- An upgrade checklist
- Training on the new capabilities available in Cobra 5
- In-depth training manual for the new functionality in Cobra 5

RAPID DEPLOYMENT, PRE-DEFINED SCHEDULE

The use of our packaged upgrade service provides a fast, predictable time-to-value than alternative methods. And this service offering includes all of the assistance necessary to upgrade to Cobra 5, including plans, checklists and techniques. We'll even demonstrate the new capabilities embedded in our Cobra 5 software and explain how we can help you use your solution more effectively.

Deltek (NASDAQ: PROJ) is the leading provider of enterprise applications software designed specifically for project-focused businesses. For more than two decades, our software applications have enabled organizations to automate mission-critical business processes around the engagement, execution and delivery of projects. More than 12,000 customers worldwide rely on Deltek to measure business results, optimize performance, streamline operations and win new business.

REDUCE YOUR RISK DURING UPGRADE

Deltek Consulting has used years of experience upgrading Cobra during earlier releases to develop a methodology that reduces your risk. They also have extensive knowledge of the product, enabling them to deliver tools and techniques that accelerate your time to benefit. These tools and techniques have been proven and refined resulting in a more predictable and high quality conversion.

TOTAL COST OF OWNERSHIP

Our upgrade service offers our customers a lower total cost of ownership by reducing the time it takes to upgrade the system through the use of Deltek developed tools and techniques. Our experienced Cobra consultants will guide you through the upgrade process, ensuring a faster upgrade, fewer problems and a realization of value and benefits. Our consultants also have direct access to the product development and technical support teams, information and techniques.

TRAINING – TRANSITIONING TO COBRA 5

Our upgrade service also provides a training course specifically designed for existing users of earlier versions of Cobra to prepare for Cobra 5. This course covers new terminology, new user interface, navigation and menus, process changes with the use of wizards, converting data and security with hands-on exercises to get users up-to-speed quickly.
